A BREATH OF SUMMER

Comes From Far Distant California-A Wheeling Man in the Land of Perennial ner Writes Entertainingly. pecial Correspondence

degrees in the shade, with a hot sun is the condition in Southern California to-day. The golden orange hangs temptingly on every tree, and the air is full of the delicious fragrance of the or-ange flower varied with the delicate and soothing odor of rose and carna-tion. We can scarcely realize that in and soothing odor of rose and carna-tion. We can scarcely realise that in our old Ohio Valley snow may be up-permost with howling north winds as a supplement.

The fruit gathers

permost with nowing north winds as a supplement.

The fruit gathering is now at its heighth and the packing house here is shipping five to six car loads of 300 boxes each of oranges and lemons per day, employing thirty men. The greatest care is exercised in selecting the fruit for shipment, so the waste, or cuils, as they call the fruit thrown out, is very large. No use is made of this waste fruit, although much of it is as good for immediate use as the best.

is as good for immediate use as the best.

One grows lazy here very soon. It is a country to take ease in—only sunshine, with cool nights—say fifty degrees, and dust. The mornings are a delight—very like June in Wheeling. A morning ride by electric car seven miles on one straight street, or a carriage drive at will, rejuvenates one, and we can enjoy a tramp through an orange grove—all stand open, fences not being known here—eat all we want, and that will not be many then stray home, hot, dusty, tired.

We hear much of the profit of orange growing, but do not see it. The industry is not greatly different from fruit growing in the vicinity of Wheeling. A few do well—the majority live. The climate is in favor of the poor, so they exist with greater comfort. Wages generally and the cost of necessities are about the same as at home. We are dicting on new potatoes (two crops each year) cabbage, peas, radishes, etc. Vesctables and fruit come along every month in the year. The range of the thermometer cvery—twenty-four hours is from twenty-five to forty-five degrees.

hours is from twenty-five to forty-five degrees.

There is some anxiety as to a water supply as the rain fall this winter has been small. We see a little snow on the highest mountains, but it will be gone by June. Water is the greatest necessity, and it is brought many miles at high cost.

One is greatly deceived in apparent distances here, mountains ninety miles away being plainly seen, and a mountain two miles high does not look to be higher than Chapline hill.

A bleycle ride of seven miles up the avenue with a rise of 100 feet to the mile to the end, then back down the hill the same distance, over a track as smooth and hard as a cinder walk, is a joy forever. This is a great country for the bleycle, and there are many riders of both sexes.

We say to the sick, delicate, brain weary and over worked, come, rest, and be made whole.

Killed by a Train.

Special Dispatch to the Intelligencer.

MARTINSBURG, W. Va., March 4.—
Henry Shepherd, who lived near Shepherdatown, W. Va., while crossing the
Baltimore & Chio railroad track to take
the Baltimore & Cumberland accommodation at Shenandeah Junction, today, was struck by an east bound
freight train, sustaining injuries of
which he has since died. He was aged
about thirty years and was well known.

Holmes Must Hang.

PHILADELPHIA. Pa., March 4.—The upreme court to-day, in a decision by ustice Williams, overruled all assignments of error in the case of H. H. Holmes, sentenced to death for mursering Benjamin F. Pietzel, and contined the judgment of the court below. The opinion says that no substantial ror has been pointed out, and the vidence fully sustains the verdict. The papers in the case are in the rands of Governor Hastings, who, it is believed, will fix an early day for the xecution of the notorious criminal. Holmes has lately been making preparations for the gallows and is said to have sent for a Catholic priest who has since visited him several times.

The Ice Bound Shenango.

The Ice Bound Shenange.

ERIE, Pa., March 4—The four men who reached North East, Pa., from the ice-bound ferryboat Shenango No. 1, on Monday, after a perilous journey over the ice fields, started on their return trip to the vessel to-day with a sledge carrying provisions.

The Shenango, the members of the party say, has been forced by the tremendous pressure of ice out of the water and the keel of the big steamer is three feet clear of the water almost the entire length. It is believed, however, the steamer will emerge from its present predicament with no further damage than that already sustained by the accident to the steering apparatus.

Disastrous Fire.

PITTSBURGH, Pa., March 4.—A disastrous fire occurred at Avalon; on the Fort Wayne road, at 3:30 this morning. Three dwellings were totally destroyed and Mrs. Frank Hudson, an occupant of one of the houses, was seriously hurt by jumping from a window in escaping cremation. The loss is estimated at 325,000, which was partially covered by insurance.

SICK-POISON.

What it is and Where it Comes From.

Sick-poison is what makes you sick, irritates your nerves, disorders your functions, saps your strength, makes you miserable.

Different diseases have different poisons, some have several.

Different diseases have different possons, some have several, indigestion
more than any.

That is, the symptoms of indigestion
are caused by the poisons which are
created by undigested food.

When you are sick, try to get rid
of your poison.

It is often easier than you think, for
all nature is helping you. Only the
poison is obstinate, but the first step
is to go to the root of it.

The poisons or undigested food, which
cause lethargy, headache, dizziness,
weakness, bad taste, stomach-ache, fever, flatulence, nausea, constipation,
loss of appetite, jaundice, anaemia,
neuralgia, rheumatism, etc., these poisons can be swept away and annihilated by the Shaker Digestive Cordial.

Curing the stomach and helping it to
digest food, when it is too weak to do so
by itself, will purify your system of poisons and renew your strength and
health.

Shaker Digestive Cordial, a pure yes-

son and renew your strength and health. Shaker Digestive Cordial, a pure veg-etable, digestive tonic, made by the Shakers of Mount Lebanon, will cure all disorders caused by the poisons of un-digested food, when nothing else will

give any relief.
Sold by druggists. Ten cents for a trial bottle.

Commercial bills 44 56%, Bar silver 68%e. Silver certificates 68%@680. Trading in stocks to-day was on about the same volume as yesterday. The market appeared to have cut away from the influence of the Cuban imbroglio. The greater part of business was for account of the professionals, but there was also a little leaven of commission orders. The temper of the financial community was more cheerful than at any time since the introduction of the Cuban belligerency resolutions. London lent some support and covering by the traders was quite the order of the day. There was a marked absence of news having a legitimate bearing upon prices, aside from the encouraging exhibits of February gross earnings.

It has become the fashion with the traders to mark time upon London, owing to the absence of outside interests in the market. The upward movement was checked for a brief interval by an attack on Burlington, which caused a drop of 1½ in that stock. The selling was again attributed to the unsatisfactory character of the January report published on Monday. Other stocks lost substantial fractions in a few cases, but the upward movement was soon resumed with renewed vigor. Sugar advanced 1½; Gengeral Electric gained 1½ per cent; Tobacco also advanced % per cent; Leather preferred, on the other hand, lost ½ per cent. The bond market to-day developed decided strength in sympathy with the improvement in the share trading, which closed strong.
